### G.M.'s Message

On behalf of AREC's family, it is my pleasure to welcome you to the 29<sup>th</sup> Issue of AREC's quarterly newsletter, a tool to bring everyone up to date with the news, events, information of AREC's family.

Hope you enjoy this edition of our quarterly newsletter, and as always, I welcome your feedback, any questions, suggestions to improve the design and content or inquiries on any aspect of the newsletter.

Thank you for your continued support.

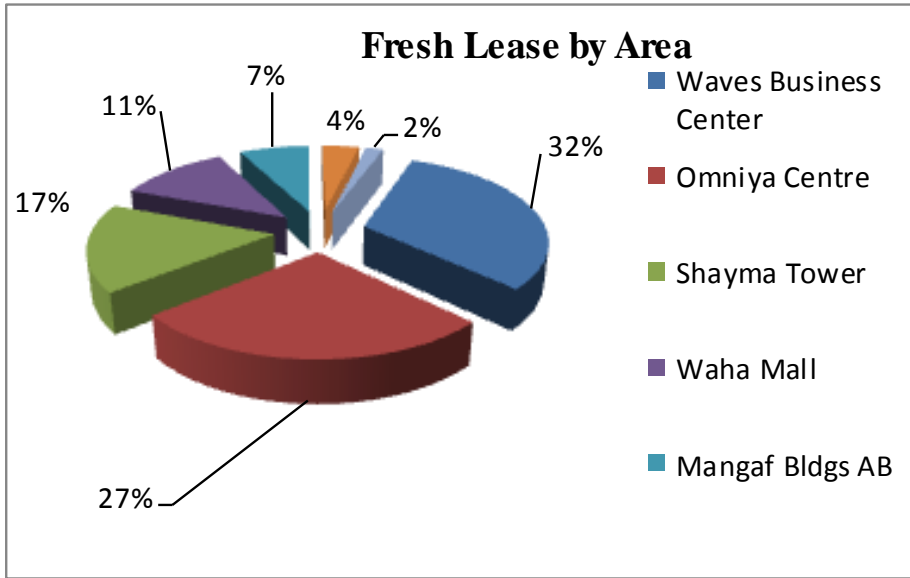

Sincerely,  
**Rawaf I. Bourisli**

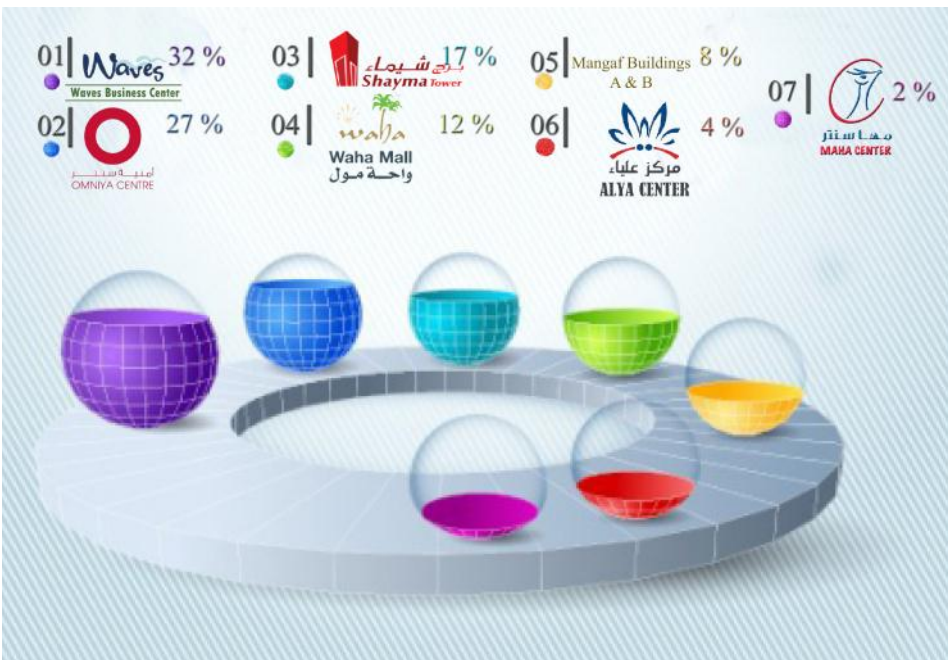

By: Joe Weberhofer, Operations & Marketing Manager

During the 3<sup>rd</sup> Quarter of 2016, the most dynamic property from a leased area point of view was Waves Business Center, with 32 % of the total space leased during the period, followed closely by Omniya Centre with 27 % leased during the period of the total leases.

Property	Percentage
Waves Business Center	32%
Omniya Center	27%
Shayma Tower	17%
Waha Mall	12%
Mangaf Bldgs AB	8%
Alya Center	4%
Maha Center	2%

Property	Income
Omniya Center	50 %
Waves Business Center	14 %
Alya Center	14 %
Shayma Tower	10 %
Waha Mall	8 %
Mangaf Bldgs AB	2 %
Maha Center	2 %

But from a money point of view, by all means the most contributing property to fresh income was Omniya Centre, alone representing 50% of all fresh additions to rental income during the period.

From a Lease Type point of view on an area basis, the most dynamic sector was the Office Space sector, representing new leases of 62% of the total leased area during the period, trailed in second place by the retail space representing 31% of all leased area.

Leases	Percentage
Office	62 %
Retail	31 %
Residential	7 %

Leases	Income
Retail	64 %
Office	34 %
Residential	2 %

But from a Money contribution to the Rental Income, the most prolific sector was by far the Retail Sector representing 64% of each fresh income generated during the period, trailed by the office space representing 34% of fresh income during the period.

H.E. Sheikh Mubarak A.M. Al Sabah hosted lunch for Mr. Eduardo Pantin, Mr. Luis Pantin and Mr. Arturo Sarmiento, also seen in the Picture are Eng. Rawaf I. Bourisli, Mr. Jasser al Jasser, Mr. Vikas Arora and Mr. Manuel

### CPVEN conducted Coiled Tubing Demo at KOC

CPVEN conducted Coiled Tubing Demo at KOC. Today the global oil industry is using coiled tubing units in almost all projects in the intervention of wells. There are many economic and operational advantages that coiled tubing service offers, of which stand out:

- The intervention of live wells.
- The elimination of the operation of killing the well.
- The elimination of the potential damage to the formation.
- The reduction of the footprint in the environment.
- The intervention of horizontal sections, and the capacity of making any intervention without using drills.

These trends CPVEN to firmly engage in the coiled tubing market, with the acquisition and implementation of a variety of ground units that can manipulate pipes with diameters varying from 1 1/4" to 2", and can reach a depth of 18,000'. In addition, CPVEN has a barge that can operate in Maracaibo Lake, completely equipped with high-pressure pumping gear, capable of handling pipes of 1 1/4" up to 1 3/4", and capable, as well, of reaching a depth of 18,000'.

## ibis Brisbane Elizabeth Street wins “2016 Best Economy Hotel of the year” award

ibis Brisbane Elizabeth Street wins “Best Economy Hotel” award Action Hotels, the leading owner, developer and asset manager of branded three and four-star hotels in the Middle East and Australia, is pleased to announce that ibis Styles Brisbane Elizabeth Street has won a “Best Economy Hotel” award at the 2016 HM Awards. The Hotel Management Awards have recognized the accommodation industry’s finest properties across Australia, New Zealand and the South Pacific for fourteen years. Over seven hundred guests were present to watch Action Hotels accept the prestigious award. Action Hotels’ key focus is to introduce quality branded accommodation at exceptional value in convenient locations across the Middle East and Australia. HM Magazine described Ibis Styles Brisbane as a “prime example of how new build hotels can thrive and tap into the modern day economy traveler”. The hotel is situated in the heart of the city and features uninterrupted views of Brisbane River and the South Bank cultural precinct, which is home to an authentic contemporary art and urban food scene. The hotel features the lively colors and upbeat furnishings associated with the ibis Styles chain and a communal style bar and restaurant, The Social, which seamlessly combines business with pleasure. Each of the winning hotel’s 367 rooms blend comfort, connectivity and style at reasonable prices. A wide range of amenities including Smart TVs, media panels in the rooms, a 24 hour reception and Wi-Fi connectivity throughout are offered to ensure guests experience true comfort with complete ease. Established in 2005, Action Hotels currently operates eleven hotels with over 2,000 rooms across 9 brands in the Middle East and Australia, with a pipeline of new properties in development in both regions.

Action Group represented by Eng. Rawaf I. Bourisli, Andrew Nelme, Vikas Arora and Shaker Daa's along with Boubyan Bank delegates at KFTZ offices,

Sinopec delegation visited AREC offices met Eng. Rawaf I. Bourisli, exchanged views on further co-operation in Oil and Gas sector.

Review meeting of Oracle Fusion - Action Group Holdings has transformed the existing accounting application replacing it with the current market leading cloud-based application from Oracle called Fusion applications covering business functions on Finance, Procurement and Human Resource Management. Action Group has partnered with Trans Sys Solutions in this journey of transformation.

This is a real life story of engineer John Roebling building the Brooklyn Bridge in New York, USA back in 1870. The bridge was completed in 1883, after 13 years.

In 1883, a creative engineer named John Roebling was inspired by an idea to build a spectacular bridge connecting New York with the Long Island. However bridge building experts throughout the world thought that this was an impossible feat and told Roebling to forget the idea. It just could not be done. It was not practical. It had never been done before.

Roebling could not ignore the vision he had in his mind of this bridge. He thought about it all the time and he knew deep in his heart that it could be done. He just had to share the dream with someone else. After much discussion and persuasion he managed to convince his son Washington, an up and coming engineer, that the bridge in fact could be built.

Working together for the first time, the father and son developed concepts of how it could be accomplished and how the obstacles could be overcome. With great excitement and inspiration, and the headiness of a wild challenge before them, they hired their crew and began

to build their dream bridge.

The project started well, but when it was only a few months underway a tragic accident on the site took the life of John Roebling. Washington was also injured and left with a certain amount of brain damage, which resulted in him not being able to talk or walk.

“We told them so.” “Crazy men and their crazy dreams.” “It’s foolish to chase wild visions.”

Everyone had a negative comment to make and felt that the project should be scrapped since the Roeblings were the only ones who knew how the bridge could be built.

In spite of his handicap Washington was never discouraged and still had a burning desire to complete the bridge and his mind

was still as sharp as ever. He tried to inspire and pass on his enthusiasm to some of his friends, but they were too daunted by the task.

As he lay on his bed in his hospital room, with the sunlight streaming through the windows, a gentle breeze blew the flimsy white curtains apart and he was able to see the sky and the tops of the trees outside for just a moment.

It seemed that there was a message for him not to give up. Suddenly an idea hit him. All he could do was move one finger and he decided to make the best use of it. By moving this, he slowly developed a code of communication with his wife.

He touched his wife’s arm with that finger, indicating to her that he wanted her to call the engineers again. Then he used the same method of tapping her arm to tell the engineers what to do. It seemed foolish but the project was under way again.

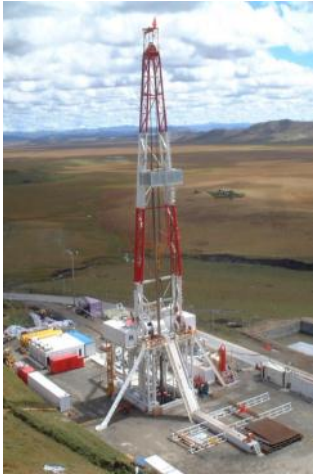

For 13 years Washington tapped out his instructions with his finger on his wife’s arm, until the bridge was finally completed. Today the spectacular Brooklyn Bridge stands in all its glory as a tribute to the triumph of one man’s indomitable spirit and his determination not to be defeated by circumstances. It is also a tribute to the engineers and their team work, and to their faith in a man who was considered mad by half the world. It stands too as a tangible monument to the love and devotion of his wife who for 13 long years patiently decoded the messages of her husband and told the engineers what to do.

*Perhaps this is one of the best examples of a never-say-die attitude that overcomes a terrible physical handicap and achieves an impossible goal.*

Often when we face obstacles in our day-to-day life, our hurdles seem very small in comparison to what many others have to face. The Brooklyn Bridge shows us that dreams that seem impossible can be realized with determination and persistence, no matter what the odds are.

**“ENERGY AND PERSISTENCE CONQUER ALL THINGS.”**  
**- BENJAMIN FRANKLIN -**

Action Drilling company — “Rig of the Month” award for excellence in Performance, Operations and Safety”., goes to Rig —SD15

The “Rig of the Month” award was presented to Action Drilling’s rig- SD15 for excelling in areas of Performance, Safety, environmental compliance and for the outstanding manner in which it conducted its drilling operation and maintained its rigs in a professional manner for the month of September 2016.

SD15’s crew and management were congratulated, awarded the “GM’s Rig of the Month” trophy by Mr. Craig Rasmussen, Operations Manager and Mr. Suhail Dahesh, Drilling Superintendent.

Eng. Rawaf I. Bourisli, Mr. Graham Lamb and the management would like to congratulate SD15 staff for applying the principles of SAFE program to their daily operational activity and thus promoting the practice of operational safety, environmental protection, and compliance with operating regulations.

Action Consultancy Bureau / BOSCO Eng. Rawaf I. Bourisli, Mr. Lynus Kalister, Mr. Robin Bose invited Mr. Evan Mc Glynn - Logan International Director (International Business Development) and Mr. Koshy Vinod, Managing Director, for Arabian Oilfield Supplies & Services to discuss and present potential business opportunities in Fishing & Downhole tools

Rental for Kuwait Oil drilling Industry, also invited Mr. Victor, Vice General Manager, Sinopec Well Services Kuwait, and his management team exchanged views on further cooperation, support in terms of Drilling Services & Supplies to Drilling contractors in Kuwait.

## Article : War on Paper

There are two important paradigms I want you to keep in mind about paper to keep it in proper perspective. First is paper is to business what fat is to a diet. It's needed to be healthy, but we tend to go way overboard in our consumption or use of it. Second paradigm is that paper is money. Every copy you make, every computer report you print cost money--from printing costs to storage and to retrieval.

Start a war on paper with these 13 tactics. Look at reducing paperwork and how much you store as a challenge to gain not only more time but to increase your profits as well.

Use the following tactics to help you:-

- Reduce the fear that you have to protect yourself by putting everything in writing.
- Get in the habit of throwing paper away (recycle).

- When in doubt throw it out.
- Create a special safety net drawer in a file cabinet for temporarily holding papers you would like to throw away but are still afraid to.
- Put only the bare necessities in writing.
- Answer memos on the originating memo.
- Copy only what you need at the copy machine.
- Use the KISS Principle (Keep It Short & Simple) toward creating computer reports.
- Reduce your filing.
- Go through your files several times a year.
- Handle paper only once if possible.
- Dot your paper corners until you finally take action.
- Use the telephone or e-mail instead of writing a formal memo.

## Employee of the Quarter : (3<sup>rd</sup> Quarter of 2016) Sally Sobhy Shalaby

The purpose of the Employee of the Quarter program is to provide recognition of employees demonstrating their commitment to AREC's vision, mission, and values. This program is intended to create a positive working environment, boost morale, show employees how much they are valued and appreciated, and foster a spirit of healthy competition.

Congratulations to Sally Shalaby on being selected Employee of the Quarter. This award is well deserved. Keep up your good work.

Joined AREC on 20<sup>th</sup> of January 2013, as Receptionist, from March 2016 onwards she is working as co-ordinator in operations and maintenance department, whenever the need arises she is also helping the Legal and Engineering Department with a smile. She is holding a bachelor's degree in Arts from Ain Shams University, Egypt.

Since joining the company, she has been an exemplary worker, meeting and exceeding expectations of teamwork, & professionalism. A terrific listener when a caller is in need of resources or reassurance. She is a stabilizing force and is supportive of colleagues, initiating change to improve

efficiency to all's benefit. Her character includes patience, thorough and thoughtful attention to detail. She is dedicated to improving the office's work flow in order to provide outstanding service.

36. metal piece that applied outside corners
39. Const. Doc. describe materials & methods
40. reaction caused when water added to concrete mix
42. a tool used to cut fancy edges on wood
45. Responsible for design, ability, looks, and code compliance of a building project
47. material fastened to inside of stud walls
48. The board that makes the steps
49. vinyl ext. piece that goes around windows & doors
50. lead carpenter on residential construction sites

Eng. Abdulrehman al Mozail has joined AREC in April 2014 as Mechanical Engineer, with over 6 years of experience he provides efficient solutions from re- search and development to design, planning, installation using innovative solutions to final commissioning, he is actively involved in the management of people and resources, as well as the development and use of new materials and technologies.

Ensures that proposed designs are in compliance with the latest efficient design criteria, proposes alternative design solutions to render the projects viable and within allocated budget. Review material submittals, review the payments related to mechanical works, review the progress of the mechanical works at site, Inspect the quality of the works and make sure it is as per standards and requirements.

He is actively involved in designing and implementing cost-effective modifications to help improve safety and reliability by managing projects using engineering principles and techniques. He is also planning designing, preparing detailed specifications, B.O.Q's, & recommending modifications following prototype test results using research analytical skills particularly in mathematical modelling and computer-aided designs by modeling and drafting in solid works and AUTOCAD to produce drawings & Graphics using 3D aided softwares, while considering the implications of issues such as cost, safety and time constraints, while working with other professionals within and outside the engineering sector to complete the projects.

Action Real Estate Company have organized a farewell for Mr. Shaker Daas, who has completed his post graduation in Master of Commerce from Madurai University, India in 1995. Joined AREC in 2007 as Finance Manager, he has spent 10 years in his service tenure with the group, as AREC Finance Manager from 2007 to 2016, at the same time was handling K-Mix in the position of General Manager from 2010 to 2015. The farewell was attended by several Managers and AREC staff at Sheraton Kuwait.

During his speech, **Eng. Rawaf I. Bourisli** said: - He has been a valued member of Action Real Estate Co. for several years, and I would like to take this opportunity to extend my professional and personal gratitude for his services, as he's been a highly committed team member with strong conceptual knowledge and versatile contributions.

On behalf of Upper Management, staff, and myself, I would like to thank Mr. Daas for his outstanding services, and wish him success in his future endeavors.

His speech was followed by several words from other managers who all praised his ethics and morality, for his dedication and sincerity through his work tenure and appreciated his efforts towards maintaining cordial relations among his colleagues.

Appreciating the valuable efforts "Your honesty and dedication at the workplace will always be appreciated. You have always treated your colleagues as your own family, encouraging everybody to work as one team, which we believe is a good sign of strong dedication.

**Mr. Shaker Daa's** Said "It has been an amazing 10 years, that I have spent with this finest group and witness the phenomenal growth it has achieved over the years. Very few people, if at all any I am sure, would have had the good fortune to do so. For me, it is also a place that offered endless opportunities for growth. I am overwhelmed with the support and co-operation extended to me at all times, and the love, affection, kindness, and respect shown by everyone of you, especially by the most-respected family members."
